PROVINCIAL SECRETARY.

"MOTOR-VEHICLE ACT."

July 7th, 1931.

PURSUANT to the provisions of the "Motor-vehicle Act," chapter 177 of the "Revised Statutes of British Columbia, 1924," His honour the Administrator in Council has been pleased to approve of the following regulations:—

REGULATIONS RESPECTING THE OPERATION OF SCHOOL BUSES.

(Pursuant to the "Motor-vehicle Act.")

In these regulations, unless the context otherwise requires:—

"Permittee" means the person to whom a permit is issued by the Commissioner of Provincial Police for the operation of a school bus;

"School bus" means a motor-vehicle used for the conveyance of children to and from school;

"Chauffeur" means a person who drives a school bus;

"School authorities" means the Board of School Trustees;

"Inspector" means any person duly authorized by the Commissioner of Provincial Police to inspect and pass upon the fitness of a school bus.

1. Every owner of a school bus shall before commencing to operate same on any highway apply to and obtain from the Commissioner of Provincial Police a permit under these regulations for the operation of such school bus.

2. No person shall drive or operate any motor-vehicle on any highway as a school bus unless a permit issued under the provisions of these regulations for the operation of such motor-vehicle as a school bus is then in force.

3. Municipal or other school authorities may enter into a contract with any person or body corporate for transport facilities for the children attending the schools in the district administered by said authorities.

4. The said contract shall be for such period of time, not exceeding five years, as the school authorities may deem advisable in the local requirements, and shall relate only to the motor-vehicle or motor-vehicles duly approved for the service.

5. Before entering into any contract as aforesaid, the school authorities shall require from the contractor a certificate or certificates under the hand of the Inspector that the motor-vehicle or motor-vehicles proposed to be used are in every respect fit for the requirements intended.

6. The said motor-vehicles shall be submitted to the Inspector for inspection at such time and place as may be convenient, and the Inspector, in addition to examination as to mechanical fitness, construction, equipment, and seating capacity, may subject the motor-vehicle to any proper test which he may deem necessary.

7. All school buses, before being put in service, and while in operation as such, shall be insured against loss of life or injury to the children or any person accompanying or in charge of them carried therein for an amount approved by the school authorities in each particular case.

8. The permittee and every person in charge of a school bus shall, upon the request of any officer or constable of the Provincial Police, forthwith take the school bus to a place designated by the officer or constable, and shall submit the same there for inspection and testing.

9. Where in the opinion of any officer or constable of the Provincial Police a school bus is unfit for the carrying of school-children, no person shall operate such school bus or cause it to be operated on any highway for the purpose of carrying school-children until the defect causing such unfitness has been remedied to the satisfaction of the officer or constable.

CONSTRUCTION AND EQUIPMENT.

10. (a.) The bodies of the vehicles shall be of substantial wooden or metal frames and sides, all permanently and securely bolted to the chassis.

(b.) There shall be at least one emergency exit door placed at either the extreme end of the bus or on the left-hand side at the rear. This door shall be in the control of the chauffeur and shall be opened only in case of emergency, but shall be tested by him as to operation each day.

(c.) All seats shall be securely fastened to the floor.

(d.) Windows shall be of clear wire or other safety-glass and be so placed as to give the chauffeur an unobstructed view ahead, to the right, left, and rear. Such windows shall be arranged so that the children cannot put their heads or arms outside.

(e.) An effective automatic windshield cleaner shall be attached to the windshield in front of the chauffeur.

(f.) Proper clearance lights shall be carried on all school buses and kept in satisfactory operating condition.

(g.) Each school bus shall be equipped with a standard speedometer, which shall be maintained in effective working-order.

(h.) Four-wheel brakes shall be essential.

(i.) Exhaust and heater lines shall be so constructed that there will be no possibility of any fumes entering the school-bus body.

(j.) Entrance and exit door shall be located at the right front corner of bus-body; such door to be controlled from driver's seat.

(k.) At least one fire-extinguisher, in working-order, shall be carried on each school bus located in such a position as to be quickly obtainable by the chauffeur.

(l.) School-bus bodies must not have an overhang inconsistent with the length of the chassis used, but in all cases the length of such body must be in proportion to the length of the chassis.

(m.) A sign "School Bus" shall be carried on each such motor-vehicle, in black letters of not less than four inches in height with a yellow back-

ground, and placed on both front and rear of the school bus.

(n.) No permittee shall change, reconstruct, materially alter, modify, or add to the body or seating capacity of any school bus after the permit therefor has been issued, without the written approval of the Commissioner of Provincial Police or some person authorized by him in writing.

The provisions of clauses (b), (d), (f), and (j) shall not apply to ordinary passenger motor-vehicles used as school buses.

The foregoing requirements as to construction shall not apply to any vehicle properly licensed as a public passenger motor-vehicle under Part V. of the "Highway Act," or to equipment at present being used during the term of a contract which is at present in force, providing that such equipment shall meet with the approval of an Inspector.

OPERATION.

11. (a.) The permittee shall make or cause to be made a daily test of the brakes of each school bus operated by him, and shall not operate same unless and until the brakes are in effective order.

(b.) Children shall not be taken on or discharged from a school bus on any highway unless a clear and unobstructed width of not less than ten feet of the travelled portion of the highway is left for free passage of other vehicles, nor unless a clear view of the school bus may be had for a distance of at least two hundred feet in each direction upon the highway.

(c.) Children, or any person accompanying or in charge of them, shall not sit or stand on the left-hand side of the chauffeur at any time.

(d.) All school buses shall come to a stop at railway and logging-road crossings, whether or not stop signs are displayed, and shall also come to a stop at the intersection of all main roads.

(e.) The speed-limit of school buses when carrying children shall not exceed twenty-five miles per hour. Provided that, in places where the distance to be travelled, and the number of stops justify, the School Board, in its discretion, may under its contract with the permittee grant permission to exceed said limit to a reasonable but safe extent in the circumstances, but at no time more than thirty miles per hour.

(f.) Children shall enter and leave a school bus only by the front right-hand side, and then only after the school bus has come to a full stop.

(g.) Chauffeurs shall not permit any person to ride on the running-boards, fenders, or any part of the school bus other than the seats thereof.

(h.) The floors of school buses shall be washed at least once a week with water containing a disinfectant solution.

(i.) Any child or pupil guilty of any disorderly or improper conduct while a passenger shall be warned and reported by the chauffeur to the principal of the school, and in the event of the offender persisting after warning, the chauffeur may put such child off the school bus peremptorily.

(j.) No chauffeur of a school bus shall partake of any intoxicating liquor, or smoke any cigar, cigarette, or pipe while on duty.

(k.) Chauffeurs in charge of school buses shall comply with the provisions of section 7 of the "Motor-vehicle Act."

(l.) Chauffeurs in charge of school buses shall not coast with gears of such school bus in neutral or by disengaging clutch at any time.

(m.) If during any trip any part of a school bus, whether the same be an automotive or a vehicular part, becomes so defective or ineffective that continuing the trip would in the least endanger the safety or comfort of any passenger, the school bus shall be brought to a stop at a point off the line of travel, and shall not proceed with passengers until the defect is remedied or the danger removed.

(n.) When a school bus becomes temporarily disabled so that it cannot be used, arrangements may be made for substituting such suitable equipment as is necessary in order to maintain satisfactory service. If the temporary substitution of such equipment will be required for a longer period than forty-eight hours, the Commissioner of Provincial Police shall be notified of the substitution

and shall have the right to make any order deemed necessary in the circumstances.
